ALUMINUM CONTAINER

All of Aluminum Containers by DURE are microwavable containers.

Aluminum Container is suitable for the future environment

- Aluminum is 100% recyclable without loss
- More than 60% of aluminum production is using recyclable materials
- Save 95% of CO₂ by recycling aluminum instead of using new aluminum
- Aluminum is used as an alternative to plastic

Aluminum Container is suitable for various purposes

- Aluminum Container can be used as a cooking tray conveniently
- Can withstand temperatures from -40°C to 350°C for versatile use
- Aluminum conducts heat evenly
- Highest level of food safety due to unique barrier properties
- Logistics optimization due to lightweight compared to plastic
- Customize packaging by color, print or embossing

Aluminum container that can be used conveniently and flexibly

- Aluminum can be used in the microwave, oven, and grill taken out from the freezer and refrigerator

Freezer

Microwave

Oven

Grill

**Aluminum
recycles**

Precautions when using aluminum containers

Use only one container when using the microwave.

When cooking on a direct fire, if there is no soup and stir-fry with seasoning, place vegetables on the bottom before cooking.

Do not use the lid when cooking in a direct fire, oven, or microwave.
